

Teamwork Contract

Team Name:	Analytic Boost	TIPS FOR EFFECTIVE TEAMWORK • Complete your Teamwork Contract at your first team meeting. • Set agendas for meetings. • Ensure clarity on your action items, timelines, deliverables, and project milestones. • Check in with your team members. • Ask questions, especially if something is unclear to you. Seek to understand. • Ask for input from your colleagues and build on each other's ideas. • Structure team meetings so that everyone has a chance to speak and participate.
Team Number:	52	
Course and Section Number:	CSCI3052 crn#: 46523	
☐ Has your team completed the Team Skills Audit form? (See below.)		
SECTION A – EXPECTATIONS, BEHAVIOURS, GROUND RULES		
Have an open, direct conversation about the kinds of expectations and behaviours that will help your team work effectively. Use the questions below as a guide to start your team discussion. To ensure a productive discussion, think about these questions in advance. You might want to practice conversation management techniques or structure your conversation using Post-It notes / a shared document to allow team members to write down their opinions. ▪ What values are important to you as a team? - o Completing work on time - o Being available to work on the project for a reasonable amount of time during the week - o Putting 100% effort into the project - o Communication ▪ What grade are you aiming for as a team? How will you help each other achieve this? - o 100% - o We will work together to the best of our ability on this project to achieve the desired grade amongst the team. ▪ How will you communicate and how often? How responsive must team members be? What communication platform will you use? - o We will communicate through discord with daily updates on how the project is going. A team member has at least 12 hours to respond to a given message about the project. ▪ How will you meet as a team (in person, virtually)? How often will you schedule meetings?		

- o We will meet both in-person and virtually over discord when needed. We will have weekly meetings for each milestone.
- How will you manage file or data sharing? Which platform will you use?
 - o We will have a [Github repo](#) for managing files and sharing data, if needed we can send things through discord or email.
- If a group member can't meet a deadline due to unforeseen circumstances, what should they do?
 - o They should inform all group members of the circumstance and what needs to be completed by them.
- What do you consider to be "late" for meetings or for internal draft submission deadlines?
 - o 15 minutes after meeting times will be considered late, as for submissions, it would be the deadline.
- What will you do if you are unhappy with the quality of work produced by the team or by an individual team member?
 - o We will communicate clearly and respectfully to understand, listen and fix any problems between members or with the work completed by team members.
- How will you handle conflict or confrontation? Will you deal with it in the moment, or do you need space and time to reflect? If team conflict or disagreement arises, how will you address it? (Consider your personal communication style and preferences and share with your group.)
 - o Depending on the person(s) involved it should be handled between the members that have a conflict respectfully. If the person(s) need a moment or are willing to hash it out in the moment then that is what should happen. All conflict should be addressed openly and honestly without harsh words or actions being taken.
- How will you provide constructive feedback to each other? (Consider what you need from your teammates when it comes to feedback and share with your team.)
 - o We will be open and honest about how we might feel towards a team members' work either through a message in the group chat or during our weekly meetings.

Questions adapted from Barkley et al. (2014)

Use this discussion and the column on the right below to create your team's ground rules.

Example ground rules

OUR TEAM'S GROUND RULES

- Carefully read and review content from all team members to ensure familiarity with the full assignment submission. - Meet deadlines the team has agreed on. - Provide 48-hour notice for any changes to group meetings.	Communication and sharing information: Discord Github Meetings and deadlines: Friday, September 25th or Monday, September 28th Friday, October 9th Thursday, October 15th Friday, October 30th Friday, October 6th Friday, October 13th Friday, November 27th Sunday, December 6th Sunday, December 6th Work distribution and quality: Work will be distributed equally with respect to each other roles Feedback: Try to keep feedback critical without being respectful Miscommunications or incomplete work: Take accountability and report ahead of time Other: N/A
---	--

When you decide on team roles, consider rotating roles for each task or stage of the project. This gives all team members a chance to develop a well-rounded skill set. Common roles might include facilitator, editor, data manager, coordinator, but you can decide on your own roles based on group strengths and the goals of the assignment.

Team Member	Principal Roles
Shan Jeofry	Data Manager, Editor
Ethan Jallim	Coordinator, Editor
Abbas Syed	Facilitator, Editor

Notes on Team Roles (E.g., Will you rotate roles? Define any roles that are unclear above.)

Roles can rotate between people, the current roles are just a slight placeholder on what we think/assume will be correct.

TASK ASSIGNMENT		Final Deliverable Due: Monday, December 7th [Date]	
Task	Steps Involved in Task	Task Deadline	Team Meeting Date
Milestone 2	- Confirm data set - Complete data card - Have an EDA - Testing Strategy	Friday, October 2nd	Friday, September 25th or Monday, September 28th
Milestone 3	- Working Data pipeline - Benchmark model - Documentation for reproducible environment	Monday, October 19th	Friday, October 9th Thursday, October 15th
Milestone 4	- Fair comparisons for required models - System Tuning - Important Study - Error analysis - Limitations and conclusions	Friday, November 20th	Friday, October 30th Friday, October 6th Friday, October 13th
Milestone 5	- Presentation of our model - Final Report	Friday, December 4th	Friday, November 27th

	- Reproducible Repo - Ai use statement		
Milestone 6 (Individual)	- Peer Reflection - Contribution evidence - 1 Failure or lesson learned - Ai use statement	Monday, December 7th	Sunday, December 6th
Milestone 6 (Team)	- Code Walkthrough	Monday, December 7th	Sunday, December 6th

Notes on Project Management and Task / Work Plan:

SECTION C – SIGN OFF

By writing your name and student number below, each of you indicates that you agree and commit to the plan developed and ground rules contained in this Team Contract.

If you do not agree with the terms above, do not sign the contract. Instead, bring up your concerns with your team. You can also contact a Teamwork Mentor by sending an email through the course slack. Teamwork Mentors can help you and your team develop ground rules and a plan of action you can all agree to.
